# Caught Up At Last!

The last "early" Peony order has been filled, and oh, what a sense of relief it brings to know that I have at last caught up with my shipping schedule. The strain of the rush has been very great, but the satisfaction of striving to get every order to each customer promptly, has been well worth the effort. can now relax a little, start my own planting and ship all orders received within one day after they reach me (that is, of course, if the weatherman is kind). I am so often asked, "How late do you plant Peonies," and as I am receiving letters asking me if I can still furnish this or that variety, I feel that should submit a list of Peonies I can still furnish, and state that I believe in planting Peonies from September first until the ground freezes solid. In fact, the slogan for my garden after September first is, "PLANT ALL THE PEONIES YOU CAN, WHEREVER YOU CAN, WHENEVER YOU CAN." I frequently take advantage of open weather during the winter, planting even as late as February and March with very good results. In some instances varieties in these late plantings showed bloom the following spring. you need a few varieties to fill out your Peony bed, or if you note in the following list some varieties you wish to add to your collection this season, and gain a whole year's growth by this fall planting, send the order in and I will handle it very promptly.

Of course, my quotations are for Bonnewitz Strong One Eye Divisions which will have at least two eyes. My usual terms will apply: Cash with order, shipments forwarded by express at purchaser's expense. For 15c additional for each division ordered, I will forward shipment by insured parcel post.
